EDUCATION

Bachelor of Technology: Information Technology Rajkiya Engineering College, Bijnor (AKTU) <i>Percentage: 80%</i>	Nov '21 - Jun '25 UP
Intermediate Wisdom Public School <i>Percentage: 91.2%</i>	Mar '20 Aligarh, UP
High School Wisdom Public School <i>Percentage: 91.2%</i>	Mar '18 Aligarh, UP

KEY SKILLS

- Languages:** Python, HTML5/CSS3, JavaScript, C, C++, SQL
- Frameworks:** React, Django, Pandas, NumPy, Scikit-Learn, Matplotlib
- Developer Tools:** Visual Studio, Git, Docker, Google Cloud Platform, AWS, Azure, Canva
- Others :** Data Structures, Database Management System, Computer Networks, CCNA, MS Office

EXPERIENCE

Network Engineer APS Telco & Network IT Solutions - Configured core network services (VLANs, Telnet/SSH) and routing protocols (OSPF/Static routes) to ensure secure network segmentation and operation. Executed switch replacement projects, deploying and installing new switches at customer locations to upgrade and stabilize network infrastructure. Resolved P1-P4 tickets in a high-pressure NOC environment, performing L1 troubleshooting and configuration for customer routers and switches.	Jun '25 - Present New Delhi
ML Intern Softpro India Computer Technologies (P) Ltd. - Analyzed healthcare records using Python and ML to identify predictive health features.. - Developed a health risk assessment tool, enhancing diagnostic efficiency and user experience. - Conducted comprehensive analyses, data-driven decision-making, healthcare applications.	Aug '24 - Sep '24
Intern Atharvo Collaborated on five machine learning tasks, yielding insights that resolved key deployment challenges. Applied diverse machine learning techniques to enhance Python proficiency and overcome complex data-driven issues. Achieved a 15% improvement in project outcomes through effective problem-solving strategies.	Jun '25 - Jul '24

PROJECTS

URL Shortener Link - Developed a web application that shortened over 10,000 lengthy URLs into custom short links, enhancing user engagement by 30% through improved sharing capabilities. - Analyzed click data by country/device, leading to a 20% increase in targeted traffic, and established a monitoring system for over 500 URLs.	Nov '24
Multiple Disease Prediction System Link - Achieved 78% accuracy in a disease prediction tool with Python and Machine Learning algorithms (Pandas, NumPy, Scikit-learn), improving diagnostics, and receiving positive feedback from healthcare professionals. - Migrated legacy data to a modern SQL framework, improving data integrity and enabling real-time analytics for 10+ projects.	Aug '24

- IoT Based Home Automation Solution | [Link](#)

Jul'24
- Created an IoT home automation system with **Blynk** to manage 10 or more appliances, achieving a **30% reduction** in energy use.
 - Programmed and simulated the system with Arduino IDE and **PicSimLab**, enabling efficient **remote management** and **automation**, achieving **95% user satisfaction**.

EXTRACURRICULAR ACHIEVEMENTS

- Ranked **#1** of top 6 IT students based on **academic performance**.
- President** of the **Literary Club**, providing **strategic leadership** and fostering **team engagement**.
- Developed skills in **AI**, **cloud computing (AWS, Azure)**, and **data analytics (Python, TensorFlow)** through the **Infosys Springboard 'Pragati: Path to Future'** program.
- Achieved **Ultimate Milestone+** in the Google Cloud Skills Boost program, demonstrating proficiency in **cloud technologies**.
